These gates are invisible to most people until your ox is GORED, pun intended. Once gored, property owners bleed to death in this life time, sometimes over many generations trying to survive the unnecessary and unthinkable takings of their private and public property, family business, traditional way of life, privacy, sovereignty, independence and even their divinity.

Nothing supports these gates, but ignorance, arrogance, jealousy, apathy, tyranny & greed. There are no founding or fundamental laws of the land or Laws of Nature and Nature's God that approve of these takings.

The entire government and colluding nongovernment system of taking property is beyond the vast majority of American's ability to imagine. The system is so perverted it cannot be described or fathomed by most.

Natural born Americans, who were envied world wide were given everything by divine intervention, e.g. allodial title, sovereignty and supreme standing via a Constitutional Republic combined with divine unalienable rights. Over time and more quickly than you can imagine, we have allowed ourselves to be mutated down to not even recognizing, we have been herded into a prison ship.

This ship of state is run by a ship of arrogant tyrant fools who have gated our freedoms into a million corrals for their benefit, whereby they have divided US into a slaughter yard with long queues of property owners waiting to be taken, tortured and killed.

See the latest incoming from other private property owners and the freedom movement here on Climategate USA - <http://www.freedomforallseasons.org/FreedomFromManCausedGlobalWarmingMyths.asp>

Also check out significant other gates they have set up and stampeded you into their slaughter houses for profit & power.

Here's one plan to get out of this mess <http://www.americanpolicy.org/more/goooh.htm>

**BREAKING:**

**Al Gore confronted on Climategate in Chicago -**

[WACC](#) | CHICAGO IL - On Tuesday, November 24th 2009, We Are Change Chicago attended a book signing with former vice president Al Gore, at the Borders Bookstore on 150 N. State Street.

The previous Thursday, news had begun to circulate that hacked documents and communications from the University of East Anglia's Hadley Climate Research Unit (CRU) had been published to the internet. The information revealed how top scientists conspired to falsify data in the face of declining global temperatures in order to prop up the premise that man-made factors are driving climate change. Please review ClimateGate for Dummies.

To ensure the public that the media and Al Gore are aware of the facts that prove global warming to be a hoax, patriots from WAC Chicago marched to the book signing. Scattered throughout a crowd of a few hundred were members of WAC Chicago ready to ask Al Gore what he thought about 'ClimateGate.'
