Subject: Alaska Oil

one of our Alaskan Residents

My daughter and son-in-law were in L.A. last week from their home in Anchorage. He is a foreman in the oil fields at ANWR.

He has to fly his own plane to get to the job where he spends months at a time in the most God forsaken place this side of Siberia.

He confirmed everything that is in this story, and brought dozens of pictures for proof. Our environmentalist friends have forced gas prices up to an impossible rate, forcing enemies, for whatever reason that simply isn't true.

There is enough oil in ANWR to supply the US at our present rate of usage for more than 200 years. The space that ANWR occupies in Alaska is equivalent to a postage stamp in the Mojave Desert.

If you won't mind paying \$5.00 a gallon in the very near future try to make sense

Something you should know: Oil!!

This is the best presentation on ANWR I have seen.

I would like to add a little more information. A new pipeline in Alaska isn't required since the location for drilling in ANWR is 160 miles from the North Slope Prudhoe Bay pipeline where it will be connected. I did not know this.

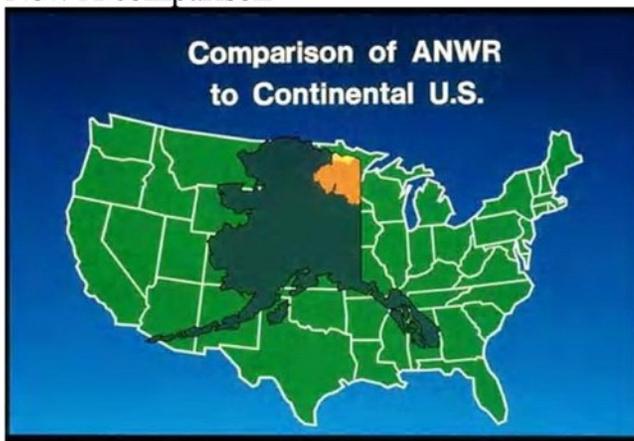

Second the wildlife love the pipeline since it is heated and provides shelter during the worst times during the winter.

Maybe another question should be asked.

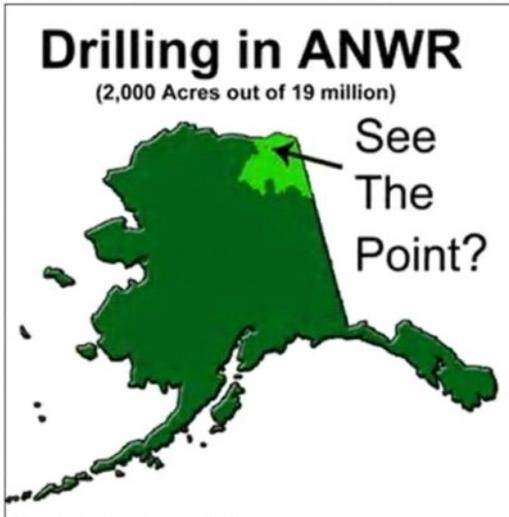

FIRST do you know what ANWR is?

ANSWER: Arctic National Wildlife Refuge.

Now A comparison

And some perspective?

As a comparison Disney World in Florida is over 40,000 acres!

NOTE WHERE THE PROPOSED DEVELOPMENT AREA IS? (it's in the "ANWR Coastal Plain")

THIS IS WHAT THE DEMOCRATS, LIBERALS AND "GREENS" SHOW YOU WHEN THEY TALK ABOUT ANWR and they are right these ARE photographs of ANWR

8/31/2012

ISN'T ANWR BEAUTIFUL? WHY
SHOULD WE DRILL HERE
(AND DESTROY) THIS BEAUTIFUL
PLACE?

WELL THAT'S NOT EXACTLY
THE TRUTH

Do you remember the map?

The map showed that the proposed
drilling area is in the ANWR Coastal
Plain. Do those photographs look like a
coastal plain to you?

WHAT'S GOING ON HERE?

THE ANSWER IS SIMPLE
THAT IS NOT WHERE THEY ARE
WANTING TO DRILL!

THIS IS WHAT THE PROPOSED
EXPLORATION AREA ACTUALLY
LOOKS LIKE IN THE WINTER

AND THIS IS WHAT IT ACTUALLY

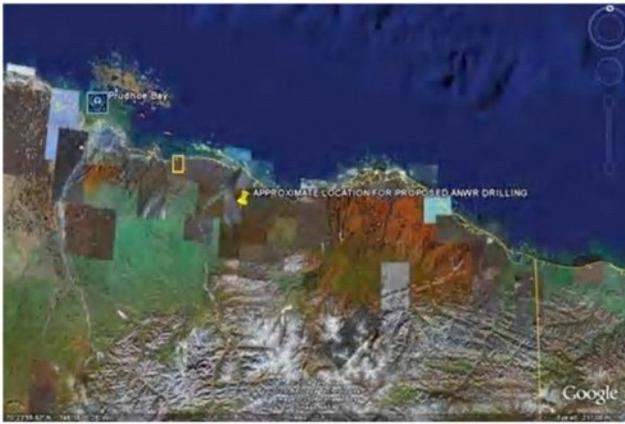

8/31/2012

LOOKS LIKE IN THE SUMMER

HERE ARE A COUPLE SCREEN SHOTS FROM GOOGLE EARTH

8/31/2012

AS YOU CAN SEE, THE AREA WHERE THEY ARE TALKING ABOUT DRILLING IS A BARREN WASTELAND.

OH AND THEY SAY THAT THEY ARE CONCERNED ABOUT THE EFFECT ON THE LOCAL WILDLIFE? HERE IS A PHOTO (SHOT DURING THE SUMMER) OF THE "DEPLETED WILDLIFE" SITUATION CREATED BY DRILLING AROUND

PRUDHOE BAY *

DON'T YOU THINK THAT THE CARIBOU REALLY HATE THAT DRILLING?

HERE'S THAT SAME SPOT DURING THE WINTER.

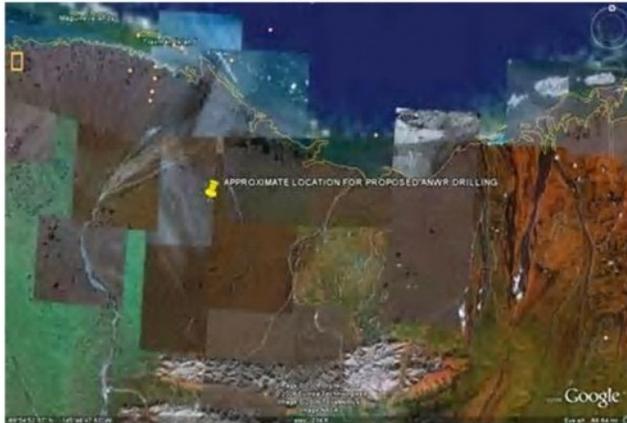

HEY, THIS BEAR SEEMS TO REALLY
HATE THE PIPELINE NEAR
PRUDHOE BAY *

*The Prudhoe bay area accounts for 17% of U.S.
Domestic oil production
NOW, WHY DO YOU THINK THAT
THE DEMOCRATS ARE
LYING ABOUT ANWR?
REMEMBER WHEN
AL GORE SAID THAT
THE GOVERNMENT SHOULD WORK TO
ARTIFICIALLY RAISE GAS PRICES
TO \$5.00 A GALLON?
WELL AL GORE
AND HIS FELLOW DEMOCRATS HAVE ALMOST
REACHED THEIR GOAL!

8/31/2012

NOW THAT YOU KNOW THAT THE
DEMOCRATS HAVE BEEN LYING,
WHAT ARE YOU GOING TO DO
ABOUT IT?

YOU CAN START BY FORWARDING
THIS TO EVERYONE YOU KNOW
SO THAT THEY WILL KNOW
the truth

8/31/2012
