**Subject:** Arrogant Bastard Ale Award Goes To...Arizona State University and American Traffic Solutions of Scottsdale

To: Scottsdale Chamber of Commerce

I love your neck of the "woods" and would go down as often as I could escape from work to visit my folks who used to live in Mesa Leisure World. They were snow birds from Montana. Dad was a retired U.S. Dept. of Agriculture Forest Ranger and Mom was a house wife taking care of real business running the family. Dad passed away at Leisure World in Mesa on Dec. 2, 1981. Mom loved it so much there, we moved her down permanently.

She recently passed at 99 1/2 at my ranch here out of Enumclaw, Washington under my care. Her memorial is attached FYI.

My background and the family is shown here at my site link - <http://www.freedomforallseasons.org/AboutJackNew.dwt.asp>

I offer you this personal exposure of myself and family in hopes you will understand the destructive nature of what American Traffic Solutions and what Arizona State University is pandering too. I was raised in a government family and still have friends and family in government.

I wanted to forward this great work of Washington State Campaign for Liberty below , with several attachments above and links below confirming another example how greed, profit and power combined, can easily overwhelm freedom and liberty and basic birthrights.

The red light cams are one of uncountable examples how our sacred unalienable rights have been taken away by the crooks in government to keep us safe of course. There is nothing to do with profit by the benefiting non government and municipal corporations who fund the shell game.

It never ceases to amaze me how all of the benefiting private and public corporations circle their wagons and pat each other on the back how clever they are to steal our property and put us all in jail while they keep us safe from ourselves. Its all about the private and municipal corporations making money at any cost for their own selfish and arrogant megalomania.

I would like to present Arizona State University and American Traffic Solutions with my own personal Award of Arrogant Bastard Ale.

**ARROGANT  
BASTARD  
ALE**

**ar-ro-gance (ar'o gans) n.**  
The act or quality of being arrogant;  
undue assumption; overbearing conceit; haughty

---

**Arrogant Bastard Ale:** This is an aggressive beer. You probably won't like it. It is quite doubtful that you have the taste or sophistication to be able to appreciate an ale of this quality and depth. We would suggest that you stick to safer and more familiar territory — maybe something with a multi-million dollar ad campaign aimed at convincing you it's made in a little brewery, or one that implies that their tasteless fizzy yellow beer will give you more sex appeal. Perhaps you think multi-million dollar ad campaigns make a beer taste better. Perhaps you're mouthing your words as you read this.

Redflex Traffic Systems <http://www.redflex.com/>

Check out this statement under American Traffic Solutions web site ....

American Traffic Solutions <http://www.atsol.com/>

#### Public Finance

Revenue Advancing(tm), an innovative program offered by the Public Finance Solutions Department of ATS, provides a way for communities to convert their past-due receivables into cash, services or equipment before the receivables are collected. The cash then can be added to the general fund or converted into additional direct services by the municipality, including red-light or speed enforcement programs, parking meters or other equipment. From parking, court fees, fines, ordinance violations, judgments, photo enforcement and other public safety related collections, ATS Public Finance Solutions convert a community's receivables into a cash advance while letting the municipality share in the upside of future collections.

ATS also provides customized leasing and lease purchase programs for photo enforcement needs. The programs provide flexible service offerings tailored to a community's needs at the lowest possible cost.

Subject: Traffic Cameras: Ready for Round Two?

August 13, 2010

Dear Liberty Activist,

We alerted you to the lawsuit challenging efforts to put red light traffic cameras to a vote in Mukilteo.

**Thanks to your generous support we're pleased to report that we won!**

Late last week, a Snohomish County Judge, Michael Downes, ruled that the lawsuit filed by the lawyers of American Traffic Solutions had no merit, and cleared the way for the issue to appear on the ballot.

The generous donations we received from supporters like you allowed Washington State Campaign for Liberty and our coalition partners to respond quickly to defeat this threat - not only this frivolous lawsuit, but to avoid setting a potentially dangerous precedent against your legal initiative process!

**Now I have to report that there's more work ahead.**

Supporters of automatic ticketing machines and the greedy out of state corporation that claims to promote "safety" aren't done with us yet! **They have filed an appeal, of the Superior Court ruling, to the Washington State Supreme Court.** If ATS attorneys and its front group are successful this could set a statewide precedent potentially taking away your right to petition your local government.

That means we now face even more legal fees. Or, we can tuck our collective tails and let a multi-billion dollar out of state corporation trample your right to petition your government. Let us send a clear

11/1/2010

message to those who don't respect our rights - **Washington State Campaign for Liberty will never back down from protecting individual liberty!**

We need your help now to push back this frivolous lawsuit. [Make as large a donation as you can today](#) to allow us to press our advantage.

The camera corporation, American Traffic Solutions, spews propaganda claiming that their ATMs (Automatic Ticketing Machines) are about safety; even though study after study shows that their ATMs increase accidents. What motivates them to infringe on your right to privacy? In a word - MONEY! **They make mega-bucks in profit sharing, yes that's right, PROFIT SHARING!** Not only are they guaranteed a flat fee per camera but then they share in the "profits" by using you as their personal ATM.

If you, like me, are sick of greedy corporations using the force of government to dig into your pocketbook, infringe on your privacy and take away your personal liberty under the guise of "Public Safety" just so they can make a buck, then please donate here, <http://wacfl.com/donate>.

Keep up the fight!

Alex Rion  
Executive Director  
Washington State Campaign for Liberty  
[www.wacfl.com](http://www.wacfl.com)  
425-298-5080

P.S. This is not the first time this privacy-invading, greedy corporation has funded a "Citizens" group in order to line their pockets. Their track record in other states and here in Washington State shows just how greedy they are. Send them a clear message; NO government forced ATMs to line their pockets! [Donate here.](#)
