Subject: King County Forecloses On 11 Rural Property Owners Access Road (Music)

To: My Rural Neighbors

Who would ever think that the 11 of us families living on a short platted 60 acre farm back in the early 1970's would all get foreclosure notices delivered to our door by the U.S. Post Office Rural Route Carrier today, 8-27-2008?

This is no surprise to me and to many of us in the property rights and freedom movement.

11/4/2010

Here's what I have dug up so far on this one taking.

First off these foreclosure notices are on the road parcel NOT on our properties.

King County forecloses on some 400 to 700+ property owners a year. Three to four foreclosures a year are on access road issues like ours. King County contracts with Pacific NW Title to run title reports in part. After talking with King County Foreclosure Department and being told they were just too busy foreclosing to work this out any other way, I asked for and received the name of their contact at Pacific NW Title to explain what was going on. Apparently there is a "law" that says the counties must "foreclose" when property taxes go into "arrears" upon 4 years. More on this stupid law later.

The person I talked too at Pacific NW Title, Curtis Goodman, was extremely cooperative and helpful. Here is what he said.

Delbert Sheldon is the owner of our access road. It appears the entire road from 416th to the north end of 250th. You have to look at your title and know how to read it. My 10 acre piece does not have title on the road. Pacific NW Title indicated to me that none of the eleven properties own the road. There are three short plats recorded in Delbert Shelton's name along our road.

Delbert Sheldon is "delinquent" on the King County property taxes for 3.5 years, i.e. since 2005. Delbert Shelton's address on the tax bill is 23210 96th E. , Buckley, Washing 98321. The delinquent tax bill on the access road is \$1083.64. He has no phone number but there are nine other Shelton's in the south end.

Curtis tells me that this method of not including the access road ownership was

11/4/2010

common in the 1960's and 70's. They do not do this anymore for just exactly what is happening to us now.

Here are the options Pacific NW Title suggested.

1. Not do anything and let King County take back the property since we already have access rights (PRO)
2. The other side of this is the following (CON)
 - The access road property will go to auction and may be bid upon for at least the back taxes. If the road property is not bought, then it will up for auction again. If this property is not purchased, then the county will condemn it and take it back.
 - However, there are at least two guys locally who bid on access properties for speculation. They tend to look for access deals to buy and then extort the property owners for "profit". Typically these are larger commercial businesses, e.g. Safeway
 - Curtis also mentioned that sometimes those bidding for foreclosure properties will not notice the amount of land or know it is an access road and buy it thinking they have a deal.
 - Curtis also said some of these "deals" will get bundled together and sold off just to get rid of them, i.e. your access road is own by anyone purchasing and selling foreclosure properties.
3. We can contact Delbert Shelton or his family and obtain a Quick Claim Deed to all of us (PRO)
4. The other side of this is the liability incurred for any accidents on the road itself, i.e. more liability insurance on top of what you have (CON)
5. Quiet Title Action - We can retain an attorney who specializes in this sort of land

11/4/2010

use issues which can seek relief from the court and establish boundary line adjustments, "Tract X" which conveys the abutting half portion of the road to you. THIS IS THE MOST EXPENSIVE.

Curtis will email me some names of attorneys in our area & copies of the deeds next week around 9-3-2008 for free as a FYI. I will forward to all.

Curtis has told his King County contacts that these access foreclosure takings should not happen at all and just be gifted to the abutting property owners. The county's reply was that it was the LAW that any property not paying their property taxes must pay all taxes, interest and penalties. I have seen four years of stupid laws, legislation, judication & administration all designed to strangle our free choice, free will and all of our 60 some un..lien..able rights.

Email me the option you prefer and I will relay to our Road "Crew" - Dick, Nadine, Karen, Stephanie. I am only your humble property rights reporter, well not so humble on this issue.

Those of you who want to meet on this, let me know and I will forward on to the Road Crew to coordinate a time.

I just got orders to print this letter without attachments and mail to each of you, which I will do.

Property Rights Alert

I have spent the last 3.5 years studying why we have lost our property rights which led me to

- why we have lost all of our rights
- which led me to discovering we never had any rights.
- Hard to believe, isn't it.

It is key to understand the history of the taking of our property rights.

- General Washington "won" the battle but America lost the war to the Central Bankers in England, Europe and America.
- The Pilgrims were free for only 55 years until England came after our freedom again.
- Then it took us another 100 years of oppression before enough colonists rose up and revolted.
- And then only 1/3 wanted to revolt, 1/3 wanted to stay under King George III, 1/3 waffled.
- Out of the 1/3 who wanted to be free, i.e. 1 million colonists, only 20,000 stood up and were willing to fight.
- Out of these 20,000, only 2000 near froze and starved to death next to communities too caught up in their own lives to notice.

11/4/2010

- We must wake up, history is repeating itself again.

Did you know that property taxes are unconstitutional and have been ruled so by at least 4 state high courts?

- But that is only the tip of the iceberg of taking of all our rights.
- You can add to King County's 400 to 700 foreclosures on unconstitutional property taxes
- another 50 rural properties who are "not" complying with their so called unconstitutional "Open Space" "Public Benefit rating System" restrictions
- then add some 1500 tickets a year on "code violations" of small rural property owners, all unconstitutional
- I will spare you the long list of other takings including the so called Rails To Trails Act, another unconstitutional CON..gressional taking.

Did you know that we used to have allodial rights to our land, i.e. rights of kings. Land patents are also strong in the courts. We no longer own our own land, especially with Fee Simple. We are forced to pay these unconstitutional taxes and are regulated to death.

Our private property, including our wages, homes, land, vehicles are part of a bundle of unalienable...un.lien.able rights we are given at birth, i.e. birthrights. They cannot be taken under any condition! Please check out just a few of some 700 reports sent out on YOUR rights growing attached above.

The bottom-line is near unbelievable. Here is just the tip of the iceberg of what I have found after 4 years of ongoing research on government takings.

11/4/2010

1. There is NO law that requires you to pay "income taxes".
 - The 16th Amendment ("Income Tax") was illegitimately passed, i.e. it never had 3/4 of the then 48 states vote.
 - Even if it did multiple high court rulings have ruled nothing changed,
 - i.e. it was only an indirect tax NOT a direct tax upon peoples wages.
2. Property taxes are unconstitutional and have been ruled so by at least 4 different state high courts,
 - i.e. they are not apportioned by population.
 - You cannot mathematically apportion direct taxes upon property owners by population.
3. The Constitution allows for two kinds of taxes, uniform indirect and apportioned direct.
 1. Uniform indirect taxes are upon legal fiction corporations.
 2. Apportioned direct taxes were ONLY during war, extraordinary emergencies,
 - at 1/4 of 1%, 2% was considered enslavement, and
 - there is a strong case they were only meant to be voluntary!
 - and the federal government cannot tax the sovereign states nor sovereign state Citizens
4. Sales taxes are indirect excises taxes and have been so ruled by various courts.
 - Indirect taxes have to be paid directly by the businesses whereby you decide through free choice
 - You decide which product or service you wish to purchase and pay the tax on.
 - The current system of adding and transferring the tax upon the consumer is unconstitutional and fraudulent.
5. America lived with no direct taxes from 1776 to the early 1900's.
6. The 14th, 16th, 17th Amendments are illegitimate and never received the necessary 3/4 states votes

11/4/2010

7. The so called "Federal Reserve" is neither federal or a reserve and it is unconstitutional.
8. The only legitimate taxes to support limited government are uniform direct taxes, duties, imposts, excises, the sale and use of our natural resources.
9. The Framers never meant America to become the social, educational, environmental, ad nauseam, tyrannical nanny it is today
 - o The Framers intent was a limited government only
 - o Social, educational, environmental, name your favorite welfare, can only be private sector services voluntarily paid for not by force upon property owners or any natural born sovereign free state Citizen.
10. Government and those who use us and control us are ignoring our fundamental laws & rights
 - o as well as ignoring prior high court decisions supporting these laws
 - o as well as ignoring our natural laws, natural rights, common law, unalienable rights
11. Our currency is unconstitutional and worthless and falling against other more stronger currencies in the world.
 - o In my younger days we carried real silver coins and paper notes redeemable in gold or silver.
 - o Today we carry "legal tender" which equates to legal debauchery.

You will be surprised who is extorting your property rights.

I will send this general road news out to the property rights movement shortly without names except for mine unless I hear from you otherwise BECAUSE...

- It is through ignorance and apathy that we property owners are systemically taken to the cleaners.

11/4/2010

- Now you know what 99% of the Americans do not know....yet.
- We have to "enlighten" one property owner at a time ...
- often against their own belief system that we "owe" property taxes, income taxes, sales taxes, ad nauseum.
- Natural born sovereign free state Citizen owe NOTHING TO NO ONE.
- This is why the government and those who use & control it, have incorporated the cities, counties, states and D.C.,
 - i.e. they are municipal political subdivisions and state corporations distancing themselves from their constitutional and common law chains

Our sacred rights have been systematically taken from us so quietly we do not even know we are more enslaved now than in the Middle Ages.

Jack

P.S.

I hope I haven't offended anyone. Often the truth can be very offensive as it goes against our preconceived notions. I have found much in recent and far history that has turned my thinking around 180 degrees. There is a tsunami grass roots movement rising in America digging up these lost truths. The internet is our salvation IF we take action. Rural and urban property owners, 2nd Amendment people and tax freedom people are connecting up to fight this growing taking. I have turned off mainstream media which is terribly biased and now owned by only 5 corporations. If you want to be added to my email news, let me know.

My Little Country Road

*I live on a little country road
Well nigh three decades of my life
With friends and family surrounding me in my little bungalow
Which has sheltered me from strife
On this little country road
Some ten families also have their abode
And we are all family
Why else would we stay together so long
On this little country road
We meet and greet each other on this little road
On our way to and from work, carrying our heavy loads
Always waiting for the hour to pass
When we can journey home
Down our little country road
And how do we care for this little country road?
Why that is some mystery to me
Outwardly it appears to be covered in gravel and rain and snow
But something else very odd appears to be
What has been bringing me home
All these long long years, in sun, rain, joy and misery
Has not been that little country road
But the love from all those families.....*
