Subject: The Rape of Property Owners

Dear Washington Representative Darneille and WA House,
Senate, King County Council, AWC, Property Owners,
Freedom Foundations, Friends:

I would like to respectfully reply to your comment
regarding -

"Comparing your plight to the physical assault of women
and children is offensive. Please use a thesaurus to find a
word more accurate than "rape"."

The definition of "Rape" from The Random House
Dictionary of the English Language follows.

Rape

1. the act of physically forcing a woman to have sexual intercourse
2. any act of sexual intercourse that is forced upon a person
3. the act of seizing and carrying off by force.
4. see Statuary rape
5. to force (especially a person..) to have sexual intercourse
6. to seize, take, or carry off by force
7. to plunder (a place)
8. to commit rape

Under Section V. Definitions

12/12/2010

"..the common part of speech is listed first....this order is changed in those cases where it is desirable to group related meanings .."

In circles of property owners, constitutional rights people, gun owners, tax payers, anyone who government takes from, the word rape is associated most commonly with meanings 3., 6., & 7. i.e. the order of these meanings are changed and grouped accordingly to serve to communicate that We The People are being raped of our freedoms.

This word is increasingly used among the citizens in America to mean government force, seizing, taking, plundering, e.g. our land, house, wealth, income, peace, weapons, rights to worship, constitutional rights, natural rights, etc. That usage is not to demean or take from the other common use of the word.

This is a most ugly word indeed. I have to admit that I have had a number of friends and family members who have experienced this ugly taking as it is defined in 1 & 2. I have also had another experience I would like to tell you about.

I worked one month during one summer on the staff of the young men's reformatory at Bordentown, NJ. My Uncle was on the board and got me the job. I also spent one month that summer working in a aluminum extruding mill that supplied him parts for his inventions. I was an engineering student at Montana State University. I was young and naive as you can get. I grew up a little that summer. The fellows in the extrusion mill thought the Indians were still running loose off the reservation in Montana. They would kid me all the time about being from Montana. Ironically, I later used that extrusion experience in a project at The Boeing Company.

My assignment on the staff of the Bordentown Reformatory was compiling the statistics of the case histories of each inmate. If you think that only women and children are assaulted, I wish I had a copy of that study to show you. I will spare you the details. I have forgotten most of it. It was a shock to this

12/12/2010

Montana cowboy. I was about 20 years old. This was my first lesson in the horror of big cities and their prisons.

While one can intellectually differentiate the various definitions of this ugly word, here is some detail I won't spare you of our "plight".

This is what this four letter word means to us regarding the Random House definitions 3, 6 & 7.

- Taking private property while plundering the State and U.S. Constitution
- Creating land use acts that force, seize, take and plunder all of our private property and land use rights.
- Creating never ending legislation that forcibly plunders, seizes and takes all of our natural God given rights as free citizens
- Intentionally ignoring corrupt election officials and acts, while they force, take and plunder the peoples choices
- Seizing the governorship on a 130 votes ignoring the election error of ten times that.....conveniently not mentioned
http://en.wikipedia.org/wiki/Washington_gubernatorial_election,_2004
- Allowing illegals to drive and vote in our state which plunders and forces your corruption on the good people of this state
- Using the emergency clauses to force your takings upon us
- Seizing citizens referendums and initiatives by trying to block and obstruct our right to do so
- Carrying off by force our educational system and not allowing it to be free choice
- Taxing and spending against the will of the people
- Blocking audits
- Blocking major reforms of the state and county governments thereby forcing more big government taking on all of us
- Not using applicable transportation taxes to keep up with freeway and highway construction.
- initiatives green energy hoax that are totally uneconomical and can only be done with government subsidy

12/12/2010

- Perpetrating mass transit boondoggles that serve on 3% of the people while costing the 6.2 million people of the State billions

Whether you are a young man in prison, or a women on the street or a property owner or tax payer, the word "rape" means to take away your innocence and your life. This is what Washington State government and King County government is doing to not only the "plight" of the property owners but everyone.

We are all sick your arrogance and corruption in government who do this to us. Your legislation in Olympia is as worthless as the fiat worthless money being printed at the Federal Reserve. The long series of government use of force, seizing, taking and plundering citizens money, land, homes, vehicles, education, peoples lives, etc. is killing us. Government does this while they breech their own oath of office, code of conduct, ethics, constitutional law and honor to name only a few. This behavior by many has disgraced all of you and our Founding Fathers and the principles this great country was founded on.

Please use the State Constitution and the United States Constitution and study the history of this country to find out what freedoms we have lost and try to understand what freedom really means. Do not use a thesaurus.

Jack Venrick
Raped of His Freedoms
By King County Socialists
And Washington State Legislature
Who Cannot Call GMA and CAO an Act of Rape
3. the act of seizing and carrying off by force
6. to seize, take, or carry off by force
7. to plunder (a place)

Subject: ESA AMENDMENT

Dear Representative Vaad,

Thank you for returning my phone call yesterday. Sorry to have missed you. Regards your question Federal Vs State - following is an amendment drafted by representatives in `99 or 2000. The late Dr. Jerry Bohlander and I brought it to this form...recently found and thought worth reintroducing; particularly at a time when President Bush may bring long overdue ESA reform.

ESA is the main generator of the grave water displacement problems in Colorado.

Representative Vaad, passage of this bill today, will do water and land use owners and consumers a major justice by insuring water for crops necessary for food and Governor Ritter's alternative fuel plans.

Passage of ESA Amendment in CO will set a precedent other states have indicated they'd most eagerly follow.

Thank you,

Roni Bell Sylvester
