

Dear Patriotic American Friend,

With the Washington DC Swamp full again of American-energy-hating liberals, Nancy Pelosi, Joe Biden, Chuck Schumer, Alexandria Ocasio-Cortez and the rest are pushing a Carbon Tax.

A Carbon Tax would not only bankrupt America, it would hand America's energy future to the United Nations while putting China First when it comes to energy!

The good news is... The Senate is split evenly, the House is split almost evenly and every single elected official is looking over their shoulder knowing most Americans are watching them closer than ever.

Why is that good news? Well, because when Barack Obama launched his War on American Energy back in 2009, the anti-American energy majority in the Senate held 60 seats! They had a MAJORITY of 78 seats in the House. Overwhelming! But we stopped the worst of Barack Obama's War on American Energy none-the-less. Meaning we CAN stop them now!

What's more, we used our fights to STOP Obama's War on American Energy to build a Pro-American Energy coalition of millions of Americans who DEMANDED a pro-American Energy president. And we got that in President Trump. And NOW MILLIONS of Americans KNOW that access to our own vast, affordable and reliable energy reserves is enough to fuel a strong and prosperous American economy for hundreds and hundreds of years to come.

More to the point, thanks to our work, MORE Americans than ever before oppose Carbon Taxes that would bankrupt our economy AND put America's future in the hands of One-World socialists at the United Nations and China! Of course, that alone won't stop these people. It won't STOP them from pushing a Carbon Tax if they can get away with it!

But, with YOUR HELP, the American Energy Alliance CAN STOP a Carbon Tax. They won't get away with it! So long as you will take three crucial actions, right away:

First: Sign and return your "***Carbon Tax Outrage Petitions***". They're made out to your two Senators. They're called "Outrage Petitions" because this Carbon Tax assault IS an outrage. I'll make sure your Senators know you DEMAND they stop this outrage. They must know you'll only vote for those who OPPOSE Carbon Tax threats to America!

Second: Complete and return your 10-Question "**American Power 2021 Survey of 3 MILLION Americans**" today. This Survey will only take a moment but your answers to the Survey will be a powerful tool to STOP the latest Carbon Tax assault and those politicians who promote them. Your answers will also be combined with those from as many as 3 MILLION Americans you can help me reach and used to remind all Americans – including elected officials and candidates for office – that you and MOST AMERICANS demand a bright energy future for our country built on the massive, affordable and reliable energy resources right beneath our feet. And NOT a nasty Carbon Tax or the so-called "Green New Deal".

Third: Include with your signed Petitions and your completed Survey a generous gift of \$10, \$25, \$35, \$50, \$100, \$250, \$500 or even more to fund the maximum effort my staff and I here at the

other people you help me reach in your state – they’ll know you are **OUTRAGED** at the idea of these Carbon Tax schemes. When I combine your *confidential* answers to your **American Power 2021 Survey of 3 MILLION Americans**, with those from as many as 3 Million Americans you can help me reach, I’ll also **SHOW THE POLITICIANS IN WASHINGTON, D.C.** that America **REJECTS** this Carbon Tax assault on our pocketbooks and our nation!

What’s more, massive public opinion surveys like this American Energy Alliance effort are **CRUCIAL** when the balance of power in Washington, D.C. is **SO CLOSE**.

They let elected officials know where voting Americans like you stand on crucial issues like Carbon Taxes and the “Green New Deal”. They also put politicians who are “on the fence” or already looking ahead to November 2022 on notice. It’s a clear reminder that they must either **LISTEN** to the will of the American people, or **LOSE** at the polls.

Once I receive your generous gift – your investment, really in the future of America! – I’ll use it on the proven programs we honed while fighting Barack Obama’s War on American Energy back before we had a pro-America President like Donald Trump in the White House! With your help we’ll:

- Print, mail and distribute our ***Carbon Tax Outrage Petitions*** and **American Power 2021 Survey of 3 MILLION Americans** to as many as 3 million more Americans... And unleash a massive grassroots army opposed to Carbon Tax assaults on American energy.
- **EXPOSE** to millions more not only the Left’s Carbon Tax and “Green New Deal” agenda but also those Democrats and double-dealing Republicans who support such threats to American power. We’ll also make a nationwide media push that will include conservative talk shows and even the liberal media outlets like MSNBC and the New York Times.
- Coordinate our media assault with an **all-out EDUCATION offensive** on Capitol Hill using the combined answers to the **American Power 2021 Survey of 3 MILLION Americans** we receive from those millions of **Americans you can help us reach** to demand policymakers **REJECT** the Carbon Tax agenda while opposing ANY politicians who support it. You can **BET** those people in Washington will **HEAR YOUR VOICE** when **millions of Americans demand politicians and candidates for office REJECT the CARBON TAX!**

That’s the **EXPOSE, EDUCATE and END** strategy the American Energy Alliance used to **STOP** Barack Obama. That’s the same strategy President Trump turned to when he relied on the American Energy Alliance to help guide his Pro-America energy policies that helped Make America Great Again! That’s the **SAME** strategy I hope you will help me use to defeat the Carbon Tax threat and **STOP** those politicians who want to **STARVE** America of her own abundant, affordable and reliable energy resources!

Exposing the dangerous details of a Carbon Tax Agenda assault as part of the “Green New Deal” will be hard work. The liberal media will cheer it. The well-funded left-wing special interests, socialists in office and their billionaire backers are against us. They **LOVE** the Carbon Tax.

But, here at the American Energy Alliance, we **NEVER** give up! We never quit when Barack Obama was using the White House to ruin American Energy. We were there to help Donald Trump craft his Pro-America energy agenda that helped rebuild our economy. And, with your help, the American Energy Alliance will make sure **MILLIONS** of Americans know that a Carbon Tax Agenda – no matter what these over-zealous socialists, Democrats and double-dealing Republicans call it – would:

- Increase the already high price of electricity by 13 to 20 percent;
- Destroy \$2.5 trillion in American economic growth; and

▶ **INSTRUCTIONS:** Please use a blue or black pen to answer the following questions. Your answers will be kept strictly confidential. Once all surveys are completed, we will use your answers along with those we receive from as many as 3 MILLION Americans to STOP the Carbon Tax and the "Green New Deal" along with those card-carrying socialists, Democrats and even double-dealing Republicans who plan to use this dangerous agenda to bankrupt our economy, surrender our sovereignty to the United Nations and put China First when it comes to energy. Thank you.

- 1** **Question #1:** Did you know a Carbon Tax would increase the already high price of electricity by 13 to 20 percent, destroy \$2.5 trillion in American economic growth and decimate an average of 400,000 American jobs per year between now and 2035?
- Yes No
- 2** **Question #2:** Perhaps even more importantly, did you know that one goal of these Carbon Tax schemes is to DENY AMERICA access to her own energy resources? And did you know America has enough natural gas, oil and coal to light homes and businesses for 575 years, fuel EVERY car in the United States for 430 years, and heat and cool America for 500 years?
- Yes No
- 3** **Question #3:** Were you aware before reading Tom Pyle's letter that American taxpayers would have to pay between \$51 trillion and \$93 trillion over 10 years for the "Green New Deal" that includes dangerous Carbon Tax schemes?
- Yes No

AMERICAN ENERGY ALLIANCE will conduct in 2021 to reach and engage 3 MILLION Americans to STOP the Carbon Tax. That's what it will take to STOP these Carbon Tax schemes and STOP politicians willing to weaken our economy with left-leaning socialist energy policies that ruin our economy and our nation. Otherwise they'll shove Carbon Tax schemes, "Green New Deals" and similar anti-America nonsense down our throats!

Simply put, the Carbon Tax would bankrupt America. You'll find it in the Left's socialist "Green New Deal" where you would expect it to be. These *politicians* seem to think the loss of American strength and economic ruin of a Carbon Tax is "ok" so long as it makes them sound good on TV.

You've seen how unhinged these people have been since taking control in Washington, D.C.

So, it won't be easy to defeat their dangerous assault on our nation's future. But with your Carbon Tax Outrage Petitions, your American Power 2021 Survey of 3 MILLION Americans and your generous contribution of \$10, \$25, \$35, \$50, \$100, \$250, \$500 or more, this is a fight WE WILL WIN.

Against Democrats. Against double-dealing Republicans. Against outright Socialists. Against ANYONE who tries to weaken our nation. Especially when our great nation has the massive, affordable and reliable energy reserves to fuel HUNDREDS OF YEARS of economic growth. That's right! In fact:

- America has enough oil to fuel EVERY car in the United States for 430 years...
- Our nation has enough natural gas to light homes and businesses for 575 years...
- The country we love has more than enough recoverable coal within our borders to light, heat and cool America for 500 years... Or more!

Maybe that's WHY international socialists hate America. BECAUSE we're so strong!

Maybe that's why their lackeys here in our own country try again and again and again to weaken us with Carbon Tax schemes. And why they try to saddle us with the kind of staggering socialist nonsense contained in the "Green New Deal". And why they DENY hard working Americans like you and me access to the enormous energy reserves *right here* in our own country.

Whatever their reasons... These Carbon Tax schemes are potentially devastating! Maybe that's why the left-wing Green zealots LOVE the Carbon Tax that would;

- Force Americans to drive small, European-style cars, get food and other products from "local" – read: EXPENSIVE – sources and force state and local governments to fund multi-billion-dollar "infrastructure" projects that line the pockets of the Left's political allies and cronies,
- Siphon off billions of dollars to Green special interests to fund boondoggles like Solyndra, AboundSolar and a whole host of failed "Green Energy" projects, and
- Seize an ever-increasing amount of hard-earned taxpayer dollars, while also dictating THEIR preferences and THEIR values on YOU and ME.

Does that sound like a good idea to you? No! Not to me, either. But American Socialists and most Democrats LOVE IT. And even some Republicans have signaled they're "on board" with these crazy schemes! And *these* people are in **control** in Washington.

That's why I must have your signed Carbon Tax Outrage Petitions, your American Power 2021 Survey of 3 MILLION Americans and your generous financial support of \$10, \$25, \$35, \$50, \$100, \$250 or even \$500, right away!

When your Carbon Tax Outrage Petitions hit your two Senators' desks – along with those from
