Subject: The Legend of Boise Creek King County Washington - Restoring Salmon & Buffalo Runs & Other Urban Legends

TO: King County DOT, DDES, DNRP, Council, Ag
bcc: Property Rights Groups, Freedom Foundations, Washington State and U.S. Representatives and Senators, Washington Governor's Office, Washington Supreme Court, King County Ag, Council, Media, Friends. Washington State ATG

The link below will take you to 5 years of material gathered from some of the best in the property rights and freedom movement to help you separate the fish facts from fish fiction. Green types will be shocked with an immediate reaction of disbelief.

Once you learn how the dirty government and non government municipal, tax exempt and private corporations take you, you can spot the takings all over "heaven and earth".

The entire "American" system of "government", "Jud(as)iciary", "CONgress", "Executioners" go against ALL the founding, natural and divine laws of the land while they lie, cheat and steal from you and your family, generation after generation.

All these green (environmental and monetary) takings and more are floated on a fraudulent monetary system of endless debt and bailouts of the crooks who created this racket of perpetual plundering of the natural born private and public property and their traditional way of life.

This is the Legend of Boise Creek, a typical taking funded all over the world by the corporate state.

Green government and non government groups recreate themselves on the broken backs and minds of each generation, propagating urban myths selectively designed to better enslave each generation.

Other fireside fantasies include -

1. "man caused" global warming myths,
2. "alternative" energy myths,
3. "endangered species" myths,
4. "sustaining development" myths, i.e. urban and rural death,

11/4/2010

5. **usurious interest is necessary myths,**
6. **direct taxes are constitutional and necessary myths,**
7. **wars are necessary myths,**
8. **your own your land with fee simple title,**
9. **some land is "critical" and some is not myths**
10. **ad nauseam.**

Restoring the salmon runs and buffalo herds of yesteryear are right up there with the myths of replacing fossil and nuclear fuel with green energy while pretending that man causes global warming with his .017% net net contribution of CO2.

Whether it is the Church, State, Bench, Bars, Bankers, political Brokers, Mainstream Media Brokers or State Training Camps of Academia; we are none-the-less as clever as our American and European ancestors creating Salem Witch Trials and Inquisitions burning the innocent at the stake and taking their property.

Sustainable "death" and growth management CREATES an ant colony and bee hive mentality out of otherwise peaceful folks.

- **Stacking homes, trailers, subsidized apartments, businesses, trains, airports, trails, parks AND**
- **multimillion dollar European roundabouts, million dollar fish culverts AND**
- **little million dollar Boise creeks bubbling with million dollar salmon**
- **IS THE PROBLEM and NOT THE SOLUTION.**
- **property owners are crushed to death while the government and nongovernment brokers become fat**

You are witnessing one of the greatest silent wars in history, the creation of green Stepford Towns all over USA Inc. by green public and private corporations who are creating genocide of an entire rural and urban traditional way of life in America.

- **This green insanity is because of the unnecessary mass urbanization (herding and corralling) of America and Americans for profit and power.**
- **The idea that a community has to have forced takings, direct taxes and non allodial titles is a positive feedback loop of perpetual perversion.**
- **All these takings are done in silence, ignoring all the torture of the natural born who are sovereign and free agents**

If you think these words are too strong, then you don't know Paul Hiatt or thousands of tortured property owners like him.

- **Nor do you know they tried to murder Dr. Crittenden, which ironically compelled him, to write his book "Salmon at Risk and Elite Planners".**
- **You can read all about this via the link below.**

11/4/2010

The idea that people have to be enslaved to support the richest nation in the history of earth should be your clue how successful the corporate state brain washing campaigns have been and how the mind game is played by the Brokers of profit and power.

The problem is NOT that America does NOT have enough, it is because American's have allowed themselves to be taken by green (\$ & enviro) con artists.

The art of war has only changed in color, i.e. from **blood red to **cold** to **green**.**

I give you a treatise on the Legend of Boise Creek and other fish myths that will turn your **red blood cold, link below.**
