We The People

WE the People of Montana are gravely concerned about the integrity, or lack thereof, of the 2020 General Election. There is widespread and justified distrust in the integrity of our elections. It is our duty as well as yours to investigate, hold people accountable, and fix the problems.

WE sought meaningful participation in discussing and presenting our concerns, but were treated as subjects rather than as equals.

WE made reasonable and logical requests, but were ignored.

WE were denied any meaningful *participation* in the county's election decisions, or a meaningful opportunity to present our concerns. Instead, sham hearings were held that wasted everyone's time, as the County proceeded with its predetermined outcome, deaf to our concerns.

WE conducted our own investigations as best we could, and were shocked and alarmed by what we learned, concluding that this was a secret election, controlled entirely by a foreign corporation known as ES&S, that reported election results using machines we cannot inspect, algorithms we cannot see, and election records the County cannot produce or destroyed, and ES&S would not produce.

WE asked what the county's standards were used to meet the requirements for "*certification*", and were told to go look it up in a dictionary.

WE conclude based on our findings there has been a gross failure to conduct a free and open election.

WE studied the law, given no other recourse.
