Subject:	The Yellow Polka Dot House & How Muni's & Banks Steal 65% of Your Property

244th Ave SE & SE 464th Enumclaw, Washington, Ole town of Boise, Washington

I. Understating How Much The Municipal Racket Extorts

Regulation costs PLUS illegitimate zoning costs are far over \$200,000 of a home, i.e. a recent UW study is way low. Inflating the \$200,000 fraudulent regulation cost from over a CURRENT average ownership lifetime of 44 years runs this extortion to near \$1,000,000.

II. Understanding How The Municipal Racket Works

To understand how the racket works, I tell this story often. A fellow engineer worked on the Oregon State DMV database. He said some 98% of all the driving public in Oregon State history had one or more tickets going back through history. These <u>commercial</u> codes long ago became such a profitable racket for the municipalities, states and USA Inc so they <u>ALSO</u> applied them to the natural born Americans to further fund their demented takings of property. The entire system of municipal government corporations and their associations are debased on progressive profit and control of private and public property, i.e. positivism.

Another study has shown that not only did the unFed unReserve cause the great depression, if it had not existed, i.e. been approved and created by CON..gress in Christmas of 1913, there would have been a much shorter depression as in the depression of 1907. There was no UnFederal Unreserve for 75 years preceding its crooked enactment in 1913.

Same for prescription drugs. Around 1938, prescriptions were not necessary and the free market lower prices reigned. You can guess what happen, the pharmaceuticals and the AMA got together and cornered the market. <u>http://www.jstor.org/pss/725214</u>

The same for alcohol. This is what the Whiskey Rebellion was all about.

http://www.kingcounty.gov/property/permits/info/SiteSpecific/septic.aspx

Here are the King's County Gestapo below. You may want to send them your thoughts.

- King County Employees Stats <u>http://lbloom.net/xking07.html</u>.
- There are 30 County employees in this "Septic Systems" group http://directory.kingcounty.gov/GroupDetail.asp?GroupID=16620.

What we have is 30 municipal employees costing us some \$4,000,000 in fraudulent taxes plus they are trespassing and harassing private property and business owners. County governments are the most useless and mismanagement corporations in the world. They do not compete in the free market, they offer no cost benefits and they are highly inefficient plus they are all based on extortion and larceny.

The Cost of Private Property Stolen By Central Banks & Their Government

1/6/2010

Excel sheet attached for full viewing - "The Cost of Private Property...

III. Lifetime Costs of The Municipal Racket on the Home Owner

The table above shows what the total taking looks like on a \$450,000 home over an average home(s) ownership lifetime of 44 years.

The Excel sheet is attached above for better viewing.

The bottom line is the fraudulent extortion and larceny by large and small municipal governments and the central banks are taking at least 65% of your life. And that is only for your sanctuary which is suppose to be untouchable just like your body. Add that to the additional extortion of illegitimate taxes on your wages, estates, say 25% plus say 10% for misapplied sales taxes which can only be levied upon corporations and you have 100% of your private property taxed away. No one or no nation can survive socialism or a democracy or capitalism or a forgotten Constitutional Republic that allows this.

Also, one in five homes in Nevada is under foreclosure (20%) PLUS 14% of home owners are late on their payments PLUS another 10% at least have missed payments. This totals to some 44% foreclosed and late on their payments in the worst states

IV. The Collusion, Entrainment & Complicity of the Banks upon the Home Owner

ALL interest rates are usurious and equivalent to profiting from money changing especially on fiat worthless "money". Americans have been brain washed by the very associations that profit from this stealth taking of private property that the concept of interest is legitimate while it is a long confirmed pyramid scheme. The banks are highly fractionalized. The loans are mere electronic, representing no value and in fact they are empty worthless IOU's. The banks make more than enough on the closing cost fees alone of the electronic "loan".

Interest alone on an average home of \$450,000 consumes 13% or more, of the life cost of the home and cripples the family from paying off the principle in a fraction of the mortgage lifetime and their lifetime.

Print these two reports out and read until you understand how crooked the game board is.

- o http://www.freedomforallseasons.org/unFederalunReserve/The%20Hlstory%20Of%20Interest%20Throughout%20Time.pdf

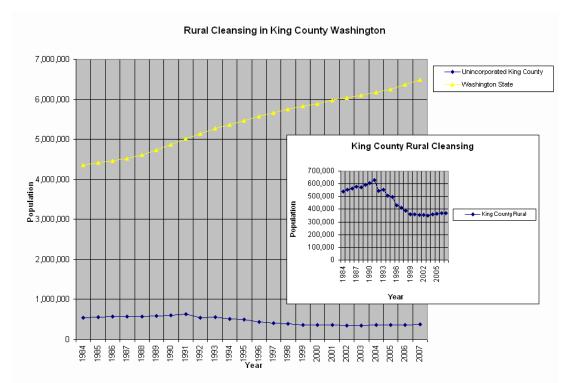

V. Municipal Corporations Cannot Tax Natural Born American's or Their Property For Existing

Property taxes and taxes on wages on natural born Americans who are NOT government employees are not constitutional. They are not apportioned to population but that is only one reason. Government employees have to pay government taxes. Those of us who are not employed in the municipal corporations pyramid schemes are free.

 "The individual, unlike the corporation, cannot be taxed for the mere privilege of existing...the individuals' Right to live and own property are natural rights for the enjoyment of which an excise cannot be imposed". Corn v. Fort, 95 S.W.2d 620 (1936)

An interesting side note - Scott Nobel, the King County tax assessor was recently charged for vehicular assault - <u>http://www.seattlecaraccidentlawyerblog.com/2009/03/scott_noble_king_county_assess.html</u>. This is an interesting contradiction, to make a point. Scott Nobel is the one who pushed up the private property assessed values, ref. chart above. He was never charged with property assault for that injury, nor was the municipality of King County Inc. charged for life's they destroyed and continue to destroy.

VI. Rural Cleansing and Zoning Are Another Illegitimate Tax on Property .

Rural cleansing and zoning are another illegitimate form of private property taxing . This cost that is above and beyond the regulation cost shown above. This silent form of taking also goes against all the founding and fundamental laws of the land.

Any act of taking without your express approval and knowledge is illegitimate. If you enter into a subdivision where you sign an agreement or covenant without coercion, deception and with full transparency, this is a legitimate contract and binding. Otherwise, what you see in the above chart is another illegitimate taking via deception orchestrated by associations, who are profiting greatly, at your expense from the stampede.

The current common practice of "zoning" is also fraudulent and goes against all the founding and fundamental laws of the land. The government and non government associations who write up these restrictions are making their careers by herding people into more costly and denser urban areas. Reference a short list of 35 crimes in table below.

VII. The Erosion of Your Allodial Rights with a Free and Clear Title

Allodial Title - Land Patent or the absence of, in American property ownership is another example of the silent erosion of what was given to us by being born free in America. Herein is one key why our ancestors revolted and why we ARE revolting again. The cost of not having allodial title is the price of life itself. You can read much about it on the web and here http://www.freedomforallseasons.org/FreedomToOwnLandWithAllodialRights.dwt.asp.

The Homestead Patent above was filed in July 23, 1908 by my grandfather Herbert L. Birum for 163 acres north of Saco, Montana.

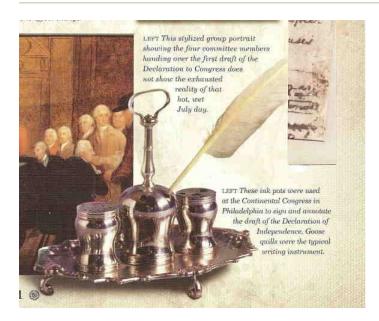

Dry Branch Fire Squad sings a song called "True Histeria" (misspelled intentionally) about how the eastern Kentucky Appalachia farmers were conned out of their land by the New York Robber Barons for the minerals under their land. These crooks sold the farmers their own land for 6 cents an acre for the mineral rights. Then they mined it of the minerals and the timber unresponsively. The rains came and the floods wiped out the Appalachia farmers into poverty.

35	2000's	Taking of rural property via million dollar concrete intersection fish bunkers forced upon local property owners	X	X	X	X	X	

Excel Sheet attached for full viewing - "State Crimes Against Property Owners by Gvt types..".

VIII. Government Crimes Against Property Owners

A short list of "Government Crimes Against Property Owners" is shown in the above table. Each line item of taking involves an association (s)who has a stake in taking. The fact that each of these takings goes against sacred natural rights and a Constitutional Republic and the American Revolution is ignored by the entire system. Merely because some greedy municipality and/or association doesn't have to work so hard and long if they can stick it to you. The 6 plus founding and fundamental sources as well as the oaths of all government employees swear to protect these rights under a free and honest Constitutional Republic.

IX. Conclusion.

This is NOT a nation of laws, it is a nation of rights. Without individual rights and free choice, there is NO freedom or liberty. The progressive laws have become perverted. The founding and fundamental laws are ignored.

The last 234 years since the American Revolution has been the era of CONNING private and public property and small business property away from the honest intentions of the great American Revolution.

Action Items - to win the 2nd American Revolution?

- 1. Get out of the traps the municipalities & non government corporations have set for you, your family and your property, generation after generation.
- 2. Get smart about how the con game works, so you can go around it, do NOT participate in their game.
- 3. Organize and give all you can to the property rights and freedom foundations near you, full court press.
- 4. Stand up and fight and expose these commercial codes and confront them in their face, they hate being confronted
- 5. Resist all compliance to their traps as the great Mahatma Gandi did,
- shove them off YOUR private and public lands
 Bally your local shoriff and paidshorhood watch group
- Rally your local sheriff and neighborhood watch groups to be on alert to protect each other & resist any trespass
 <u>Do NOT</u> accept the taking, taxing, coding, regulating, legislating, administrating or "judicating" of private property as legitimate or
- necessary8. They are all silent con games & rackets developed over centuries by government types, associations & corporations for THEIR personal gain

A good litmus test to clarify what is a taking of property, is to ask yourself, "was the act of taking property including wages, done by force or deception or by free choice?". This will quickly expose the underlying agenda.

Wake up American's We were beguiled The British never left The ruling kingdom never died The American Revolutionary war though "won" They instantly took our free choice Another war begun
