Subject: State of Washington DOE - Shoreline Master Plan - Growth Mgmt Act OR Global Predetermined Agendas
To: King County Sheriff Office

I am a rural property owner north of Enumclaw on acreage and wanted to add your office to my property rights reporting if I may.

Here is my last report to the State of Washington DOE.

Please check out my web site which is 5 years of research connecting the dots on our disappearing property rights. It is an amazing story which took me 5 years to wake myself up. The truth is stranger than fiction.

I am a retired Boeing engineer living in the Enumclaw King County area for over 30 years and from Montana originally.

POLITICAL PHILOSOPHY
At its core

US CONSTITUTION AND
BILL OF RIGHTS

AMENDMENT V
"nor shall private property be
taken for public use without just
compensation"
Man's rights are inherent to his
nature as a man. As such they are
unalienable.

UN DECLARATION OF
HUMAN RIGHTS

ARTICLE 17 SEC 2:
"Property shall not be arbitrarily
taken"
Mans rights are granted
by other men; as such, they can be
taken away by men.

Ecology 2009-11 Biennium Budget By Program

Ecology carries out its mission through ten environmental programs, plus agency administration. The agency's combined Operating and Capital Budget is divided among these programs and includes funds Ecology will pass-through to other entities.

| Programs | FTEs | Operating | Capital | Operating + Capital |
|---|----------------|----------------------|----------------------|------------------------|
| Water Quality | 245.4 | \$70,643,706 | \$336,664,157 | \$407,307,863 |
| Waste 2 Resources | 98.1 | 29,569,137 | 141,375,322 | 170,944,459 |
| Water Resources | 156.5 | 38,161,089 | 59,854,000 | 98,035,089 |
| Shorelands & Environmental Assistance | 156.6 | 67,063,649 | 18,341,592 | 85,405,241 |
| Toxics Cleanup | 170.0 | 50,706,829 | 23,326,627 | 74,033,456 |
| Administration Program | 219.6 | 49,909,641 | 863,753 | 50,773,394 |
| Air Quality | 101.1 | 32,153,676 | 3,649,626 | 35,803,302 |
| Environmental Assessment | 129.9 | 30,382,037 | 0 | 30,382,037 |
| Spill Prevention, Preparedness & Response | 70.2 | 29,482,150 | 0 | 29,482,150 |
| Hazardous Waste & Toxics Reduction | 124.2 | 28,075,459 | 451,001 | 28,526,460 |
| Nuclear Waste | 76.5 | 19,459,627 | 3,841,944 | 23,301,571 |
| Total | 1,548.1 | \$445,627,000 | \$588,368,022 | \$1,033,995,022 |

Washington Department of Ecology – Overview 2009-11

Publication #09-01-014

IF the State of Washington had a legitimate constitution based on a honest Constitutional Republic, which it does not

- AND IF the so called Department of Ecology was a legitimate branch of a legitimate State Constitutional Republic, which it is not
- AND IF this 1 billion \$ was a legitimate funding source, which it is not
- AND IF the DOE employees were not taking undue benefits from illegitimate sources of funding, which they are
- AND IF the DOE employees were not abusing their illegitimate powers, which they are
- AND IF the DOE employees were not networking with and colluding with like minded eastern green extreme funded groups, which they are
- AND IF the local communities voted unanimously to participate, which they did not
- AND IF all the local property owners also voted unanimously to participate in this taking voluntarily, which they did not
- AND IF there was a direct pay back to make these programs economically viable, which there are not
- AND IF there were NO illegitimate direct taxes upon the natural born State Citizens, which there are
- AND IF there were NO illegitimate directly applied indirect taxes upon the natural born State Citizens, which there are
- AND IF there were NO illegitimate excise taxes upon the natural born State Citizens, which there are
- AND IF all of the natural born State Citizens had allodial rights of their property titles, which has also been taken
- AND IF usury upon the natural born State Citizens had not been long allowed and perpetuated, which it has been
- AND IF the Corporate State of Washington had not warred upon its fellow corporations destroying the employment base, which it has
- AND IF the Corporate State of Washington had not warred upon its own sovereign and free natural born State Citizens, which it has
- AND IF there were no hidden green agendas, which there are

11/1/2010

- AND IF the State and its complicit green non government groups were not using junk science, which they are
 - AND IF the State of Washington natural born Citizens were completely free and sovereign, which they are not
 - AND IF the Municipal Corporation of the State of Washington was NOT making 60 Billion dollars a year in illegitimate revenue off the backs of its people
 - AND IF the Municipal Corporation of the State of Washington did NOT have a net worth of some 132 billion
 - AND IF the Municipal Corporations of the State with its county and city municipals, were not conspiring with Washington D.C. Inc, which they are
- Dept. of Ecology and these programs would STILL never work
 - Because they are not based on the free will of the natural born State Citizen's
 - The DOE is based on debased agendas of deception and tyranny

Please find my response to your takings of private and public property at the applicable site links below. This includes 5 years of research from fellow rural property owners and myself who are personally living through this hell created by a growing network of city, county, state and eastern UN AND global municipal corporations with predetermined agendas. This is a silent war. It will be very difficult for you to comprehend. It was for me too.

1. Regarding the so called "Critical Area" takings, please link below.
 - <http://www.freedomforallseasons.org/FreedomFromCriticalAreaOrdinanceMythsNew.asp>
2. Environmental takings of property go against all natural laws & natural rights which are part of the fundamental laws of this land - link below
 - <http://www.freedomforallseasons.org/NaturalLawAndNaturalRights.asp>
3. Environmental takings go against all the unalienable fundamental rights of the Sons & Daughters of our land - link below
 - <http://www.freedomforallseasons.org/UnalienableRightsNew.dwt.asp>
4. Rural cleansing is destroying private and public property in the rural communities
 - <http://www.freedomforallseasons.org/FreedomFromRuralCleansingNew.dwt.asp>
5. Please learn the illusion of local control and the facts of rural cleansing - link below
 - <http://www.freedomforallseasons.org/CurrentPropertyBattles.dwt.asp>
6. Here is how state and counties fund themselves for side jobs at local property owner expense - link below
 - <http://www.freedomforallseasons.org/FreedomFromFishMyths.dwt.asp>
 - It took the State of Washington and King County 2 years to dream this up before they ran into a little problem
 - It took a few months to destroy the mouth of Boise Creek out of Enumclaw Washington
 - The local property owners were never consulted
 - Everyone in the county, state, and union of the states paid for this mess
 - Any private property owner doing this would be in prison.
7. Here is another mess created by the state and counties re. Roundabouts for humans and fish -

- Working on the Chain Gang -Property Ownership in Name Your {King} County Washington (Sing Along)

14. Upcoming releases on the state of Taking Property in Corp. "State" of Washington

1. A web documentary release soon on the "State" of Washington " Constitution" That Never Was.
2. A web documentary on the Corporate State of Washington & Muni. Corp. King County Consolidated Annual Financial Reports

The same profile of apathy existed in 1775. The 2/3 of 1% of the 3 million colonists who freely

11/1/2010

chose to fight under General Washington in 1775, took down the British Empire. They were left freezing and starving to death at Valley Forge while their fellow citizens in the surrounding communities stayed warm.

We are entering the second American Revolution. American's and our relation to our land will not be compromised by tyranny, apathy or arrogance of any size or defacto semantic legal fiction created by political, legal, financial, monetary or academic elite.

Most British did not want to fight American colonists. King George III infiltrated the colonies. British and British sympathizers spies passed word of the colonies mood back to the King. One Third of the 3 million colonists supported the King, one third waffled depending on where they could make a buck and one third and more wanted their freedom. Even General Washington prayed for the King out of respect. This is how ingrained the ideology of a tyrannical monarchy was embedded. Sound familiar?

Mayer (first name not title) Arnschel Bauer (http://hubpages.com/hub/Mayer_Amschel_Bauer) founder of the Rothschild Banking is rumored to have funded King George III to hire the Russian/German Hessian troops replacing British soldiers who refused to fight the American colonists. They were paid the equivalent of 50 cents a day. King George III was charged the equivalent of a dollar a day, Bauer lent him the funds and pocketed the difference. Washington won the battle and instantly lost the war. History is stranger than fiction. Follow the funding to see the tyranny.

We do NOT have a legitimate government in America. It is a network of illegitimate tyrannical municipal corporations on a string of debt, usurious illegitimate interest, fraudulent taxes and regulation/policy. This syndicated racket offered up on a plate of debt and corruption by global central brokerage houses run by global elite's. At least 60 other countries have been taken down with this same racket.

The litmus test is this question. Are you are creating any debt, taxes, regulation, policy, planning that impact a natural born state Citizen and their use of private or public property by force? If your answer is yes, you are committing a crime. This cannot be done in an honest Constitutional Republic.

Departments like the DOE as well as the other cereal departments of the several states, union of the states, counties and cities are run by a "Brotherhood of Darkness." The list of communities which have been targeted for complete take down of their property rights is attached FYI.

A Constitutional Republic is based on Individual Free Choice. Individual rights prevail above all other man made artificial creations. See table below. In America, a Constitutional Republic is ruled by the natural born, who are the true Kings and Queens of the land. We are sovereign and free.

We are the true judges and juries of all the laws of the land. Our trial and grand juries decide what laws to ignore or not. Those who sit on the juries are our friends and neighbors. The current system concocted by the ABA and FBA, is junk "justice" to go along with their green junk "science", et al.

NO artificial concocted political subdivision(s) or green cereal agencies make policy over the Natural Born State Citizen's private or public property. We pay no taxes nor are we regulated, licensed, permitted, fined, zoned, controlled or warred upon by the artificial legal fiction we created to protect us.

Until we all understand the big picture of taking, we will never understand the politics of the taking at the local levels. The pecking order in America has been perverted since Jamestown and Plimouth Rock (original spelling). General Washington lost the war against much more

11/1/2010

powerful forces who have become many times more ruthless today. All takings of private and public property connect. www.takingliberty.us

| Priority | Majority Rule Democracy | Constitutional Republic |
|----------|-------------------------|-------------------------|
| 1 | Global Elite | Creator |
| 2 | Majority | Individual |
| 3 | Government | Constitution |
| 4 | Public Servants | Government |
| 5 | Case & Statute Law | Public Servants |
| 6 | Corporations | Statute Law |
| 7 | Individual | Corporations |

2/3 of 1% of 308 million people in America = 2,053,333 people. This is the equivalent number to the 20,000 colonists who left their homes and families and came off the new frontier to fight for their freedom. The British sent in their two best Generals, the Howe brothers. The British army totaled 32,000 troops, about 1.1% of the 3,000,000 colonist. They took over the largest colonial towns, infiltrated them and fractionalized the people. There were 94 battles, 62 troop movements and 33 acts of British Parliament. The French saved us in the 11th hour, they hated the King's tyranny worse than we.

We are repeating this history again. Who will save us this time?

I was raised in a federal government family. My Father was a U.S. Forest Ranger and Range Conservationist in Montana. I have family and friends in government today. With all due respect, most government employees, live in a world of make believe. The Natural Born State Citizens are equally guilty for falling asleep at their post.

Sincerely,

Jack Venrick

Subject: please comment to DOE regarding SMP

Do you live within 150 feet of any body of water?
 Wetland ,creek, river, lake, pond. Hood Canal etc.
 The new (SMP) Shoreline Master Plan will affect you and the way you are allowed to use your property.
 Send in your comments regarding the new Shoreline Master Plan.

11/1/2010

TO jeff.stewart@ecy.wa.gov

Below are some comments.

Olympic Stewardship Foundation (OSF) asks you to PLEASE send a copy of your letters or testimony submitted to date regarding the Shoreline Master Plan by any of the OSF members or OSF supporters to OSF Attorney dennis@ddrlaw.com Dennis D. Reynolds Law Office

Comments on Jefferson County SMP Update

The SMA policy section (RCW 90.58.20) only requires that a SMP "minimize, insofar as practical, any resultant damage to the ecology and environment of the shoreline area". Later on, in section 90.58.140, it is stated that projects with "significant irreversible damage to the environment" not be approved. So the Planning Commission recommended uses of the terminology "significant adverse effect" in Articles 7 & 8 are appropriate and the DCD recommended deletion of the word "significant" should have been rejected.

Also, there is absolutely nothing in RCW 90.58 that suggests that a "No Net Loss" policy is appropriate. The "No Net Loss" policy appears out of the blue and permeates the regulations and guidelines (WAC 173-26) spawned by the Department of Ecology and flows into the proposed SMP. That appears to be inappropriate and probably illegal.

RCW 90.58.100 requires that the contents of a SMP must be developed using a "systematic interdisciplinary approach" which includes economics. The costs caused by this SMP must be evaluated versus the potential environmental benefits. Nowhere in this process has anyone been required to quantify the cost of these regulations to the county and to the property owners.

Going to the "Inventory and Characterization" report generated with DoE funds during the Jefferson County SMP development process, one would hope to find the rational/analysis that led to the recommended Shoreline Designations. We find that the report contains about 200 pages devoted to "characterization" descriptions in general and some application of these characterizations to individual shoreline spans or "reaches". However, we find no analysis, even though one of the sections is titled "REACH INVENTORY AND ANALYSES", nor any rational for the designations proscribed in this report. Further, the DCD representative handling the SMP process stated that the "Experts" developing the draft SMP "look at aerial photos to determine the appropriate characterizations". Therefore, it appears all designations are suspect and in particular the 400% increase in Natural Designations. Finally, the so called science referenced by this report and the DCD is mostly inapplicable to Jefferson County and has not had serious peer review. And finally, there is no indication that the current Jefferson County regulations are not working.

Therefore it seems to me that the DoE must reject this proposed SMP and drop the requirement that No Net Loss be a criteria. Also DoE should demand a cost benefit analysis and an evaluation of the effectiveness of the current Jefferson County regulations before any changes are made to the Jefferson County shoreline regulations.
